IEEE BHI2023

IEEE-EMBS INTERNATIONAL CONFERENCE ON BIOMEDICAL AND HEALTH INFORMATICS

October 15 - 18, 2023 | Pittsburgh, PA

CALL FOR PAPERS

ORGANIZING COMMITTEE

General Co-Chairs

Yufei Huang
Univ. Pittsburgh Medical Center

Georgia Tourassi
Oak Ridge National Lab

Bjoern Eskofier
Friedrich Alexander Univ.

Technical Program Co-Chairs

David Clifton
Oxford Univ.

Parisa Rashidi
Univ. of Florida

Jian Ma
Carnegie Mellon Univ.

Finance Chair

Jie Liang
Univ. of Illinois Chicago

Special Session/Workshop Chair

Bobak Mortazavi
Texas A&M Univ.

Industry Liaison Chair

Ahmed A. Metwally
Google

Steering Committee

May D. Wang
Georgia Tech & Emory Univ.

Dimitrios I. Foriadis
Univ. of Ioannina

Andrew F. Laine
Columbia Univ.

Stephen Wong
Methodist Hospital & Weill Cornell Medical College

Publication Chair

Edward Sazonov
Univ. of Alabama

Educational Activity Chair

Yu-Chiao Chiu
Univ. of Pittsburgh Medical Center

Local Arrangement Chair

Arun Das
Univ. of Pittsburgh Medical Center

The IEEE-EMBS International Conference on Biomedical and Health Informatics (BHI), sponsored by the IEEE Engineering in Medicine and Biology Society (IEEE-EMBS), is EMBS's primary technical conference on informatics and computing in healthcare and life sciences. BHI 2023 will take place in Pittsburgh, Pennsylvania from October 15-18, 2023. It will provide a unique forum to showcase basic and translational research on big data analytics and machine learning that address challenges in the acquisition, transmission, processing, security, visualization, and interpretation of vast volumes of multi-modal biomedical data, as well as related social, behavior, environmental, and geographical data.

The conference will also demonstrate the deployment of BHI informatics solutions that integrate key technologies including artificial intelligence, machine learning, mHealth, e-Health, human-computer interface, telemedicine, bioinformatics, sensors, imaging, and public health monitoring, to achieve patient-centric and outcome-driven effective health care. The theme of BHI'23 is *"Transforming healthcare and medicine with AI"*. The topical areas of interest include but are not limited to the following:

» Digital twin and cognitive AI
» Intelligent reality
» AI for combating long COVID
» AI-based clinical decision systems
» Biomedical natural language processing
» AI for biomarker discovery and drug design
» Digital radiology and pathology
» Single-cell and spatial omics
» Cancer genomics and immunotherapy

» Medical security and federated learning
» AI ethics and regulation
» Clinical informatics
» Translational informatics
» Behavioral and mental health informatics
» Biomedical data science and engineering education
» Multiscale modeling
» Medical AI for wearable and pervasive sensing

IMPORTANT DATES

Proposal for special session, workshop, tutorial	May 1, 2023
4-page regular/workshop papers *(firm deadline)*	May 29, 2023
Notification of acceptance	July 17, 2023
4-page camera ready paper submission	Aug. 15, 2023
1-page abstract *(firm deadline)*	August 1, 2023
Notification of abstract acceptance	Aug 15, 2023
1-page camera ready paper submission	Aug 29, 2023

IEEE   **EMB**
